

LONG-AWAITED TARIFF BILL IS GIVEN SENATE

Cumber, in Charge of Measure,
Says Senators Will Have Until
April 20 to Study It

RAISE \$350,000,000

Proposal Throws Out American
Valuation Plan Sponsored
by the House

(By the Associated Press.)

Washington, April 11.—The long-awaited administration tariff bill was introduced today in the senate. Senator Cumber, Republican of North Carolina, in charge of the measure, announced that he would not call it up before April 20. Some Republican leaders thought it would be passed after about thirty days' discussion, but others ranged as high as three months.

Experts who assisted the senate administration committee majority to prepare the bill estimate that the average of rates is slightly higher than the average of the Payne-Aldrich law, the Republican tariff act. The Payne-Aldrich level was approximately 41 per cent on all dutiable imports and 35 per cent on all imports free and dutiable. The average of the Democratic Underwood tariff, which the bill would replace was 37.60 and 35 per cent, respectively, in 1914, the first year of its operation and the year when trade was not seriously affected by the World War or after-war conditions.

Comparing this bill with the Fordney measure, which the house passed last July 21, and of which this is a re-write, the experts estimate that the average of all rates is lower, though the specific rates, and more particularly those on foodstuffs, are somewhat higher. Exact comparisons are difficult because the two bills are somewhat difficult due to the fact that the senate committee never overboard the house American valuation plan, returning to the former a valuation principle.

World Raise Many Millions.
While they have not completed all calculations, treasury experts say that a senate measure probably would save between \$350,000,000 and \$350,000,000 in revenue as compared with the estimate for the Fordney bill and the \$38,000,000 of revenue returns in the calendar year 1921 from the operation of the Underwood law and the emergency tariff act.

In returning to the foreign valuation principle, the senate committee majority carried out suggestions of President Harding, who returned to the tariff a flexible tariff. Under the present provision in the measure, the president, in the language of the majority report which accompanied the bill, would be authorized:

To modify tariff rates either up or down, within limits prescribed by the tariff act, and to make such definite rules laid down by congress so that rates may at all times conform to existing conditions.

To change the basis for the assessment of ad valorem duties on selected goods from the foreign value to the value of the domestic article in the American market, when the foreign value is not a certain basis for the assessment of duties on such items.

'WET' CONGRESS CANDIDATE BEATEN

Lewis Henry, Elmira Republican,
Chosen to Fill Vacancy Caused
by Houghton's Resignation

Corning, April 11.—With the normal Republican plurality greatly reduced, the 27th congressional district today elected Lewis Henry, Elmira Republican, to fill the vacancy caused by the resignation of Alanson B. Houghton, now American ambassador to Germany.

Henry's plurality over Judge Irvine, Democrat, was 3,087. The vote in the five counties which make up the district was: Henry, 20,799; Irvine, 17,712. In 1920 the vote in the district was: Houghton, Republican, 61,512; Durham, Democrat, 21,762.

Opponents of prohibition tonight were hailing the result as a victory in spite of the fact that Judge Irvine, who ran on a platform of opposition to the Volstead act, was defeated. They pointed to the fact that a Republican plurality of nearly 30,000 in 1920 had been reduced to 3,000, and that the half of the total vote cast. They also regarded as significant the fact that Judge Irvine carried every city in the district. All of the municipalities had voted for prohibition under the state local option act in 1918 before the advent of national prohibition.

Judge Irvine carried Elmira by 1,759; Corning, by 625; Hornell, by 359; a d Ithaca, by 268. He carried Chemung county by 368, but lost all the other counties. The vote was as follows:

| | Henry (R) | Irvine (D) |
|----------|-----------|------------|
| County | 6,644 | 6,026 |
| Chemung | 6,824 | 7,292 |
| Schuyler | 1,261 | 975 |
| Tioga | 2,595 | 1,035 |
| Tompkins | 3,485 | 2,344 |
| Totals | 20,799 | 17,712 |

In 1920 the Republican plurality in these counties was: Steuben, 10,537; Chemung, 7,349; Schuyler, 2,477; Tioga, 4,124; Tompkins, 5,263.

Leaders of the prohibition organizations which supported Henry tonight disputed the claim of a wet victory in the result. They pointed out that inclement weather had cut down the vote in the rural sections, where their candidate was the strongest.

STILLMAN CASE ON TRIAL IN MONTREAL

French-Canadians Testify They
Were Offered Money to Tell of
Mrs. Stillman's Misconduct

Montreal, April 11.—Two French-Canadians testified today in the trial of the Stillman divorce case that shortly before the suit was instituted by James A. Stillman, New York financier, they were offered \$2,000 and \$3,000 respectively to tell of the alleged misconduct between Mrs. Anne U. Stillman and Fred Beauvais, half-Indian guide named as co-respondent.

The offers, they declare, were made by J. Albert LaFontaine, station agent at LaTouche, Quebec. The defense charged that LaFontaine acted as an agent for Mr. Stillman. Armand Page, one of those who said he was approached by LaFontaine, declared that he spurned an offer of \$3,000. His wife, Mary Page, who said she, too, was approached, corroborated the testimony. The Pages and Shaf Simand, who was said to have reported that LaFontaine offered him \$5,000 if he would testify against Mrs. Stillman and Beauvais, declared today that they told LaFontaine they had never seen the banker's wife and the guide acting improperly.

Lloyd George and Facta Believed

RUSSIAN PROBLEM

Report of Allied Experts Embodies
Comprehensive Scheme for
Putting Nation on Its Feet

(By The Associated Press)

Genoa, April 11.—After two rather stormy days without serious mishap, it begins to look as if Premier Lloyd George and Premier Facta, the presiding officer of the economic conference, are equal to the squalls stirred up by the Russo-Franco exchanges over land disarmament and other matters and may be able to steer the conference ship into a peaceful haven or one that will pass as peaceful in this stormy European sea.

The organization of a subcommittee mission, which was effected today, threatened for a time to raise another storm, but was put through with less clamor from the lesser powers than they raised at Versailles when that conference was organized.

Most of the powers have shown a disposition to abandon war hatreds. The Russians and German were permitted to speak at the opening session as an evidence of forgiveness, although France resented this courtesy. The conditions of the Cannes resolutions and the agenda agreed upon were accepted by all the nations, although M. Chicherin insisted upon speaking for disarmament and threatened to do so repeatedly at succeeding sessions. However, he has said that he would not insist upon consideration of disarmament as part of the agenda.

Russia is growing about Japan and Rumania occupying part of her territory, and France bristles all over when Germany and Russia are shown any consideration. But there is a sort of armed neutrality and there are indications that the irreconcilables will become more tractable as the days proceed and will actually consider the Cannes agenda and leaving the land disarmament untouched except for occasional bursts of oratory.

Russian Restoration Program.
The report of the Allied experts meeting in London, relative to the program for the restoration of Russia and of Europe, a copy of which the Associated Press has obtained, embodies a comprehensive scheme whereby it is hoped to bring back Europe, including Russia, to healthy prosperity.

This report, marked "confidential," was handed today to M. Chicherin, head of the Russian delegation, who asked until Thursday to study the preamble. It declares that the restoration of Russia requires, in great part, upon assistance which Russia will be able to obtain from foreign enterprise and capital, but insists that without profound transformation of the actual conditions in Russia, which affects commerce and industry, foreign investors will refuse to resume old enterprises or begin new ones.

Article 1 declares that the Soviet government should accept the financial obligations of its predecessors, namely the imperial Russian government and the provisional government. This includes obligations to foreign powers and their nationals. Article 2 provides for recognition of the Russian government.

As "proof of the fact that the war department is misrepresenting the facts to congress," Mr. Johnson charged that a report by Secretary Weeks relative to sale of property transmitted to the house last December, was "the most fraudulent, misleading and criminally deceitful document that was ever submitted to the American congress."

Mr. Johnson declared the evidence he had obtained showed that the war department "is trying to control the department of justice by putting men who ought to be in the penitentiary on the department of justice pay roll and asking congress to appropriate for it."

"A review of Secretary Weeks' report shows how little he actually knows without competitive bidding," continued Mr. Johnson. "Only a few of the thousands of false entries indicating fraudulent transactions with many favored and 'insider' purchasers, will suffice to show the extent of the official depravity and duplicity exercised in defrauding the government, which has ever gone on without restraint since the inception of the liquidation process."

"Such cases as the harness sale, the lumber contract and countless other corrupt deals transpired under former Secretary Baker. The cases with which we are now dealing have been consummated under the present secretary of war."

"Millions of dollars worth of supplies were sold to each of a number of favored purchasers by 'negotiations' without competitive bidding, without adequate bonds or deposits to protect the government's interests. Indefinite extensions of time granted for storage and delivery, and finally, cancellations effected to meet the conveniences of these especially favored sets of grafters."

BABE RUTH GOES INTO THE COOLER FOR 38 DAYS TODAY

New York, April 11.—Tomorrow George Herman Ruth becomes what someone described as a "sadder but wiser man."

Each day, for a full month, his round chin will drop a notch and his wrinkling forehead will become broader. Ruth goes in the cooler tomorrow for 38 days because he defied Kenesaw Mountain Landis, high commissioner of baseball.

While hundreds of thousands of fans in the eight American league cities are marking one day off their calendars tomorrow, the misbehaving Babe, primed by a long, grueling training in the South, will be seated in the grandstand of the park at Washington looking on.

WAR DEPARTMENT WARMLY ASSAILED

Sells Property at Criminal Low
Prices to Favored Customers,
Johnson Charges

Washington, April 11.—Charges that the war department "has sold property and is today selling property at ridiculously and criminally low prices to favored customers, concealing from congress and deliberately misrepresenting the facts," were made in the house today by Representative Johnson, Republican of South Dakota.

As "proof of the fact that the war department is misrepresenting the facts to congress," Mr. Johnson charged that a report by Secretary Weeks relative to sale of property transmitted to the house last December, was "the most fraudulent, misleading and criminally deceitful document that was ever submitted to the American congress."

Mr. Johnson declared the evidence he had obtained showed that the war department "is trying to control the department of justice by putting men who ought to be in the penitentiary on the department of justice pay roll and asking congress to appropriate for it."

ALDERMEN MOVE TO HALT CRIME

Offer \$400,000 Bond Issue to Pay
for Services of 350 Additional
Patrolmen

ENRIGHT ATTACKED

Policemen Have No Confidence
in Commissioner, Alderman
Falconer Charges

New York, April 11.—While the police were today confronted with two new murders, two gun fights, and minor crimes, the board of aldermen, after listening to an attack on Police Commissioner Enright, offered a \$400,000 bond issue to pay 350 of the 1,192 additional policemen he requested last week from the board of estimate.

The attack on Mr. Enright was made by Alderman Falconer, who charged that Enright was a "politician and always has been." He said the majority of the people in the city and the majority of the men in the department itself have no confidence in the commissioner.

Although Mr. Enright contends that no crime wave exists, District Attorney Santon addressed a communication to the board of aldermen in which he said:

"Serious consideration must be given to existing conditions in view of murders now being committed daily, the absolute contempt for the duty constituted authorities, and the boldness being shown by the lawless element in the city and county, as exhibited by recent crimes of violence and robbery in broad daylight, in the homes of our citizens as well as on our most prominent thoroughfares."

Utter Disregard of Life.

"It is deemed most urgent that the city authorities take such action as will assist the district attorney and our criminal courts to proceed without delay to check the utter disregard for human life and property now existing and more adequately cope with the situation."

Today's contest between the police and their enemies was fairly sensational.

The slaying of Miss Nellie Tracy, 49, was attributed to a "ripper." Her nude body was found in the hallway of a tenement near Chatham Square. Part of her clothing lay near it, and neighbors said they saw her talking with an unidentified man a few hours prior to the discovery of her body.

John Williams, assistant janitor in an East Eleventh street apartment, was found this morning lying in a pool of blood with his throat cut. People living in the apartment told of hearing an altercation which was followed by a scream.

A little earlier, there was a hot gun fight in Brooklyn in which three alleged bandits tried to get away over backyard fences. One of their number was shot; one arrested, and the third made good his flight.

The afternoon persons on the North river front were given a thrill as a sharp pistol battle was fought before them. Two men were wounded in a quarrel over trucking prices.

AN INCENTIVE TO TRADERS

Shipping Board Counsel Urges Passage of Administration Merchant Marine Bill

Washington, April 11.—Incentive would be given importers and exporters through passage of the administration merchant marine bill to have their goods carried in American vessels with the result that ship owners would be assured full cargoes, Norman B. Beecher, counsel for the shipping board, declared at today's session of the joint congressional hearings on the measure.

One section of the bill would permit any person to deduct from his income taxes five per cent of the amount of ocean freight money paid by him during the year for the transportation of goods between the United States and foreign countries in American bottoms.

While no direct benefit would accrue to the ship owner under this proposition, Mr. Beecher said it was hoped by proponents of the legislation that the section would prove a more benefit to the owner than the receipt of an equal amount of money.

D. & H. FREIGHT NARROWLY ESCAPES BEING WRECKED

Glens Falls, April 11.—Heavy rains tonight raised the Hudson river to flood proportions in the village of Fort Edward and vicinity, and caused a wash-out in the Delaware and Hudson tracks near that village. A woman who noticed the wash-out flagged an approaching freight train and saved it from being wrecked. Live-stock was moved from barns on farms along the river and taken to higher ground. The harbor canal office in Fort Edward could be reached only by boat.

LONG PENNANT CHASE IS UNDER WAY TODAY

From All Centers of Baseball Activity Comes Tales of Urgent
Demand for Tickets

New York, April 11.—Major league baseball will make its 1922 debut in four eastern cities tomorrow afternoon, provided the weather man has properly placated in advance.

In the National league, the New York Giants will entertain the Brooklyn Robins at the Polo Grounds for tickets, and it is likely that, given fair weather, the opening games of the season will set a attendance records. The case of the New York Giants is an example of the interest being shown in these initial contests.

For several days past it has been impossible to purchase a reserved seat in the huge baseball amphitheatre at the Polo Grounds, notwithstanding its seating capacity of more than 35,000.

Umpires O'Day and Hart will officiate at the New York-Brooklyn game here, Higler and McCormack at Philadelphia, Quigley and Moran at St. Louis, and Klem and Sentell at Cincinnati.

Appropriate ceremonies have been planned to mark the beginning of another long pennant chase.

From all the centers of tomorrow's baseball activity come similar tales of unusual and urgent demand for tickets, and it is likely that, given fair weather, the opening games of the season will set a attendance records.

PYROTECHNIC BLAST KILLS 4 SOLDIERS

Five Others May Die as Result of
Explosion During Trench
Demonstration

San Antonio, Texas, April 11.—Death today of another soldier increased to four the toll from the explosion of pyrotechnics set off by the lack of a faulty rocket in a target pit at Camp Bullis last night. Nine others of the 50 soldiers who were assisting in staging a night demonstration were severely burned. Five of the injured may die.

The tragedy occurred in the last minutes of a night maneuver which was conducted by the 11th infantry of Fort Sam Houston on the rifle range at the camp, 25 miles northwest of San Antonio.

The dead are: Private John A. Benner, Baltimore, Md.; Private Joseph E. Miller, Reading, Pa.; Private Adolph Anlis, San Antonio; Private Felix Catchings, San Antonio.

Many officers of the regular army and more than fifty officers of the organized reserve attending a ten-day conference at Fort Sam Houston stood on a look-out hill 1,200 yards from the blazing trench at the time of the explosion. The woodwork of the trench, saturated with oil, quickly caught fire and burned for half an hour before extinguished by soldiers who fought the flames with dirt — water was not available.

CONGRESSMAN SAYS HE GAVE EVIDENCE FOR DISMISSALS

Washington, April 11.—The first public indication that President Harding acted on definite evidence in his recent dismissal of upwards of 30 Bureau of Engraving officials was given in the house today by Representative Johnson, Republican of South Dakota, who referred incidentally to "evidence" furnished by himself and other members of congress to justify the dismissal order.

Mr. Johnson's statement was made during debate on a resolution asking for investigation of war contracts.

STUDENT'S BODY FOUND

New York, April 11.—The body of a young man, tentatively identified as that of Ralph Wilson Broderick, Columbia university student who disappeared last Christmas eve, was found floating in the lower bay by marine police late today. Young Broderick was the son of Dr. S. W. Broderick of Sterling, Ill.

JOFFRE TO UNVEIL BUST.

New York, April 11.—Marshall Joffre has accepted an invitation to unveil the bust of General C. S. Grant in the Hall of Fame at New York university April 27, the centennial of the general's birth.

The first was General Hiram Duryea — a white-haired, picturesque figure of a man, who led the Zouaves in the stirring days of the Civil War and who on May 5, 1914, at the age of 81, was shot down and killed by his son Chester, in his home in the Bay Ridge section of Brooklyn. Chester — who was alleged to have fired the fatal shot after his father had refused a demand for money — now is incarcerated in Mattewan insane asylum, after a sensational trial.

STRIKE SPREADS INTO NON-UNION MINING FIELDS

"Enemy Is Gaining Ground Much
Faster Than We Anticipated,"
Operators Admit

RESUME N. Y. PARLEY

Anthracite Producers Concentrate
Attack on Two of Miners'
Demands

New York, April 11.—A rapid spread of the coal strike into non-union strongholds was admitted today at headquarters of the bituminous operators' association.

"The enemy is gaining ground much faster than we anticipated," said the president of a Pennsylvania company. He quoted a telegram from Greensburg, Pa., in the heart of a disputed non-union district, which said:

"Practically all of the southern part of Fayette county is now out on strike."

According to the bituminous operators, organizers for the United Mine Worker of America have practically unionized the West Moreland and Fayette fields since the strike was called ten days ago. Phillip Murray, vice president of the United Mine workers, corroborated the operators' reports.

"At the close of last week, 50 per cent of the non-union men had joined in the strike," he said. "Today, according to meager reports from our representatives in the field, we are fast approaching the 75 per cent mark."

Mr. Murray asserted that the ranks of the strikers in both bituminous and anthracite fields had been swelled by nearly 100,000 since the walk-out, and the production of non-union mines cut by several million tons weekly.

Anthracite Producers Open Attack.
Anthracite producers, in their first inning before the miners and operators subcommittee on wage contract negotiations today, concentrated their attack upon two of the miners' demands — the establishment of uniform wages for "dead" work and for operators of mechanical loaders.

It was conceded that the big struggle would develop in the operators' opposition to the strikers' demands for a 20 per cent increase for contract workers and a minimum of \$5.20 per shift for day workers.

Although it was agreed that the issues under consideration today were of minor importance in relation to their possible effect upon an early settlement of the strike, S. D. Warringer of the operators, asserted they would form a considerable part of the \$170,000,000 which he predicted the public would have to pay in increased coal prices if the miners win all their demands.

At the close of the conference, miners' delegates said they were "anxiously waiting" to learn what percentage of reduction in wages the operators, in accordance with their decisions three weeks ago, would seek to enforce in settlement of the strike. The operators themselves said they "would not talk figures until all the minor difficulties have been ironed out."

Daughter Ends Conference.

Indianapolis, April 11.—Ending conferences of two days with federal officials here, Attorney General Daugherty announced tonight that the government would not permit coal operators and miners at any wage conference to repeat acts which, he said, had brought on the federal indictments here, charging conspiracy to monopolize the coal industry in violation of the Sherman anti-trust law.

A little more consideration, he said, will be given by the government in connection with whatever agreement, if any, is entered into, while the negotiations are taking place. This may prevent embarrassment and proceedings afterwards.

FREED OF GIRE'S MURDER

Morristown, N. J., April 11.—Frank Janurek was tonight found not guilty of the murder of Janette Lawrence, eleven-year-old Madison school girl, whose mutilated body was found in Khusen Woods, October 6, 1921.

The widow and son of Major Frank Duryea, who held a high position in the business and social life of the city, were stunned today when dispatches from the coast told the story of another suicide.

Wright Duryea hurried from his brokerage office on Broad street to his mother's side on receiving the news. He expressed himself as entirely mystified at his father's sudden end, declaring he knew of no reason which would cause him to take his own life.

ELECTRICAL CAPACITY.

The amount of gas which a tank will hold depends upon its capacity. The amount of gas which is actually pumped into the same tank depends upon the pressure exerted by the pump and also upon the tank capacity.

The amount of electric charge which an electrical condenser will store depends upon the pressure of the charging source and the capacity of the condenser. As might be expected, this capacity depends upon the size and construction of the condenser.

Now when an electrical condenser is charged it is the material between the conducting plates (called the "dielectric"), which stores the electrical energy in the form of a strain produced in the material itself. The strain is caused by the electrical charges which are placed upon the conducting surfaces; for example, upon the two tinfoil coatings pasted on opposite sides of a sheet of glass. The glass is the dielectric in this case. The ability of the dielectric to store energy must, then, be taken into consideration in determining the capacity of the condenser.

The thickness of this dielectric is another consideration.

The capacity of any condenser depends solely upon the following four things:

(a) The area of the metal coating, which is opposite (or opposed to) another metal coating.

(b) The ability of the dielectric to store energy.

(c) The thickness of the dielectric.

The capacity varies directly as does the area of metal coating and the ability of the dielectric (the "dielectric constant") and indirectly as does the thickness of dielectric. A condenser with a thin dielectric, or small spacing between its plates, has a larger capacity than one having a thicker dielectric, everything else, of course, being the same in both cases.

A condenser has electrical capacity in concentrated form. It is a "lumped" capacity. A single wire may have some electrical capacity with respect to the earth or to another wire. In this case the capacity is said to be "distributed."

SEEDS FOR BRITISH TREES

Gathered in the Northwest and Shipped to Scotland.

The first shipment of Northwest forest seeds for the immediate reforestation of Great Britain has left Seattle for the old country.

It consists of 1,500 pounds of Douglas fir seeds and the same quantity of Sitka spruce seeds. The seeds go to the forest nursery at Wylie, Scotland.

The work of collecting the seeds and selecting only the choice has been going on all winter. A wide range of woods was covered by seed harvesters while many worked in Southeastern Alaska for the seeds of beautiful Sitka spruce.

The best seeds were those found in squirrel caches, but only a few cones were taken from each cache because of the danger of destroying the real American forest. Many of the seeds buried by squirrels grow up into trees.

NEW WAY WITH BEARS

Trapper Puts Them in a Crate and Ships Them.

Most of the Warren county, Pa., hunters who go to the big woods after the bear are satisfied in shooting Mr. Bruin and then dragging him home to their neighbors to see, but Chauncey Logue, state trapper, who has been working in this locality has a better solution to the bear-getting problem.

Logue, who has been in the trapping game for many years, places his traps and when the bear is caught places a collar around its neck and armed with a heavy club leads Mr. Bear to the nearest shipping point.

A short time ago, after capturing an extra large bear and bringing it in he was asked by moving picture men if he would take it out of the crate so as to enable them to take pictures. He willingly complied and the pictures taken are now on exhibition in Pittsburgh.

Yolk Pigment.

It is reported that a chemist abroad has succeeded in isolating the yellow pigment of the yolk of egg in a crystalline state, and finds that it is closely related to the xanthophyll of leaves. This is regarded as an important scientific discovery.

To extract four grains of crude pigment the investigator employed the yolks of no less than 6,000 eggs. The crystallized pigment is known as lutelin.

MARKET RECORDS SUBSTANTIAL GAINS

Many Issues Score New High Marks; Computing-Tabulating Gains; Rails Sluggish

New York, April 11.—Quoted values in the stock market registered additional substantial gains today on another large turnover. The irregular tone of the list in the first and final hours was ascribed to profit-taking, based on the more acute coal strike situation.

New high records for the year or a considerably longer period comprehended Studebaker and several affiliated issues, as well as Mexican Petroleum, and many unclassified specialties, coppers, tobacco and textiles. United States Steel failed to equal its maximum of the previous day, but was in fair demand, probably as a result of the very favorable March tonnage report published yesterday, and buying of metals was stimulated by further large exports of copper.

As a group, rails were sluggish, but exceptions were made by Rock Island and Pennsylvania in connection with the road's good showing in the preliminary report for last year. Chicago Great Western preferred, also displayed unusual strength, but coalers eased on the heavy tone of trading.

Fractional losses in Bethlehem, Crucible and Gulf States Steels and Baldwin Locomotive at the close were neutralized by net gains of one to five points, in Studebaker, Mexican Petroleum, Royal Dutch, Pacific Oil, Utah, American Smelting, Computing, Tabulating and Stromberg Carburator.

Heavy inflow of funds from interior banks accounted for relaxed money rates.

Negotiations for the early offering of a \$15,000,000 30-year five per cent province of Ontario loan by an American banking syndicate was the most noteworthy development in the bond market.

The general list continued in somewhat irregular manner its recent upward course, under the stimulus of the further demand for rails. Over two score issues of that character, including several of the leading systems of the country, made new maximums for the year.

Liberty issues were uncertain, closing at mixed changes, but not before the 3½s, second 4s and fourth 4½s had ascended to new high records.

Easter Thoughts.

Upon each of the great stations of our calendar year we instinctively pause and give thought to certain phases of life, to close our accounts with the past and to open a new and a clean page. At January 1 our thoughts are apt to be material, to relate to our physical deeds of the past and our promises of betterment in the future. On other days, like July 4 or November 11, our ideas turn to patriotic facts and our fellow citizens. At Christmas, in spite of our understanding of the tremendous import of the birth in Bethlehem, we think of children and of the narrower spirituality that of necessity accompanies those who have not yet known sorrow, sin and repentance. But at Easter spiritual thoughts are mature thoughts. The ideas of the day of lilies inspires are those that follow a pre-knowledge of evil, and the joy of that glorious day is still restrained and pale with the recent sadness of the via crucis and of Golgotha.

Teachings of Easter.

And Easter is the feast of life—of life and light. Its teaching is that the divine life, into which it is possible for men to enter, and in which they are bidden to participate, can not die.

WALRUS HUNTERS SAW AN OLD RUSSIAN SHIP

She Was Supposed to Have Been Sunk But Was Floating in the Sea.

A historic Russian side-wheel steamer, the Polotofski, built seventy years ago, is the latest addition to the phantom fleet reported by Deering sea Eskimos, as seen this winter in the vast area of ice that surrounds the Polar regions.

A gigantic movement of the ice field southward in January brought it nearest to Northern Alaska for many years and members of several tribes walrus hunting were started one night to see the old steamer riding in the ice pack. An investigation disclosed the identity of the old-time ship. That night the ice pack moved beyond the horizon.

The Polotofski was caught in ice floes at St. Michael in December, 1913, and disappeared the following spring during a great storm. It was believed she had been ground to nothing and sunk. The ship was built in 1853, the hull and ribs of Alaska yellow cedar and spruce. Her boiler was of copper and copper nails and bolts were used on the framework. When finished she was placed in service to carry ice and coal to San Francisco during the golden period.

Many deserted ice-bound ships are seen year after year in the mists of the Polar seas floating hither and yon at the mercy of wind and tide.

Golden Eagle Captured.

Anderson, Ky.—A golden eagle which measured seven feet from tip to tip of his wings was captured one day by Winfrey P. Blackburn, Van Buren, between Glensboro and Lawrenceburg. The bird is a splendid specimen of the rare species and was not injured. The big bird has attracted much attention at the home of Blackburn, where it is being exhibited.

FIRE NEAR SCHUYLER LAKE.
Farm House Burns on Wetzel Farm
Early Sunday Morning.

Schuyler Lake, April 11.—Early Sunday morning the farm house on the Wetzel farm, a few miles north of this village on the trolley line, burned to the ground with nearly all its contents. The fire caught from the chimney and when discovered about 6 o'clock by the men coming from the barn, had gained too much headway to save the house and only the furniture from the front rooms were saved. The top floor was occupied by the hired man and wife, and they lost everything. But Mr. Wetzel, who lived downstairs saved some things as mentioned. The farm is the second farm above the G. Kinder farm, and he together with his neighbors nearby helped keep the large fire truck from Richfield Springs, which was soon on the scene. There was insurance on the building and contents.

Parent-Teachers Association.
The next regular meeting of the parent-teacher association will meet at the schoolhouse here Thursday evening, April 13. Business meeting at 7:30. W. G. Krum, specialist from the poultry department at Cornell university, will give a lantern slide lecture on poultry as pertaining to boys and girls' club work. Ralph A. Smith, county leader of Junior project work, will also present a set of slides covering practically all phases of Boy's and Girl's club work.

For Women

In Middle Life, In Maidenhood, Womanhood, Motherhood. At all these periods Women Should Read this Advice

Albany, N. Y.—"When I came to middle life I began to go down in health. I would have nervous spells, my stomach was bad and I was miserable. I began taking Dr. Pierce's Favorite Prescription and I had taken only a bottle or two when I felt much improved. I kept up its use and was completely built up in health. I feel grateful to Dr. Pierce for the wonderful help his Favorite Prescription gave me and I am always ready to speak a word in its favor to other women who suffer as I did."—Mrs. Wm. Stephens, 291 Livingston Ave.

Women who suffer from headaches, backache, flashes of heat, dizziness, fainting spells, nervousness or exhaustion should go at once to their neighborhood druggist and get a bottle of Favorite Prescription, in tablets or liquid. Or write Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for free medical advice.

YOUNG GIRLS NEED CARE
Mothers, Watch Your Daughters' Health

Health Is Happiness

From the time a girl reaches the age of twelve until womanhood is established, she needs all the care a thoughtful mother can give. The condition that the girl is then passing through is so critical, and may have such far-reaching effects upon her future happiness and health, that it is almost criminal for a mother or guardian to withhold counsel and advice.

Many a woman has suffered years of prolonged pain and misery through having been the victim of thoughtlessness or ignorance on the part of those who should have guided her through the danger and quietness that beset this period.

Mothers should teach their girls what danger comes from standing around with cold or wet feet, from lifting heavy articles, and from overworking. Do not let them overstudy. If they complain of headache, pain in the back and lower limbs, they need a mother's thoughtful care and sympathy.

A Household Word in Mother's House

writes Mrs. Lynd, about Lydia E. Pinkham's Vegetable Compound. "My mother gave me Lydia E. Pinkham's Vegetable Compound when I was 14 years old for troubles girls often have and for loss of weight. A Little Book Helped Her to Decide

Milwaukee, Wis.—"My daughter took Lydia E. Pinkham's Vegetable Compound as she was so weak and did not feel like going to school. She was like that for a whole year before taking your Vegetable Compound. I found a little book of yours in our mail-box and decided to give her your medicine. She is now strong and well and attends school every day. We recommend your Vegetable Compound to all mothers with weak daughters. You may use this letter as a testimonial."—Mrs. E. KUGZNY, 917 20th Ave., Milwaukee, Wis.

"I was always feeling tired and weary, was losing in weight and would faint at times. I had other troubles too, that made me feel badly. I read your little book and heard friends talk about the good Lydia E. Pinkham's Vegetable Compound had done them, so I have taken it too. The results are most satisfactory, for I have gained in weight and my bad symptoms are gone. I recommend your Vegetable Compound to all my friends and like of this letter."—GLORIA RABREZ, 1116 9th Ave., Tampa, Fla.

IN RE COAL SITUATION.

In connection with the coal con-
troverly in the anthracite and bitu-
minous fields it is contended by the op-
erators that a principal thing to
which they object is the existing
plan by which the miner agrees that
all the fees, dues, fines and other ob-
ligations to the union to which he be-
longs must be deducted before he re-
ceives any pay for his labor. The op-
erators, who are the owners of the
mines, claim that the miner must deduct
these union dues from the wages of the
workman, and pay him the remainder.
The owners hold that in
addition to the regular purposes of the
unions, large sums have been
collected through the above agency
and used in forwarding propaganda
work in West Virginia, which they
hold places them in the position of
collecting a fund to be used against
themselves.

In the bituminous fields the miners
say that under the provisions of the
contract, where coal is paid for by
ton of coal mined, such of the pro-
duct as goes through a screen of cer-
tain size is figured in receipts and is
not weighed in. The operators, they say,
have increased the size of the screens
themselves and the mesh, with a re-
sult that much more of the coal drops
through and is not accounted for to the
miners though sold by the opera-
tors.

These are two propositions on op-
posite sides of the coal controversy,
which if correct deserve consideration.
There may be elements of
justice on both sides.

OPENING THE SEASON

This afternoon there will be ex-
citement among the devotees of the
national game the country over, and
long before the first games in the Na-
tional and American leagues are over
telephones the country over will be
sending out and receiving the inquiry,
"How's the game?" It is a natural
query and indicative of the interest
which is felt in a sport which wheth-
er amateur or professional, has es-
caped in large measure the taint of
dishonesty. In fact the disclosure of
the affair of two years ago in the Chi-
cago and Cleveland teams in the
World Championship series was rather
an indication of the general high
standing of the sport than otherwise.
There was naturally bitterest con-
demnation, but the universal tenor of it
was that the taint of dishonesty had
touched the greatest of sports, and
that never thereafter should such a
thing be possible.

The league, it is pleasant to know,
have purged themselves from that
black shame. The men who were
connected with it will never again be
permitted to play professional ball;
and this season as last the public will
flock in multitudes to see major and
minor leagues with confidence that
the contests will be absolutely "on the
square"; and that the sport which had
its first "fix" many years ago on
Knickerbocker field in Cooperstown will
retain its prestige as the Great Ameri-
can game.

HIGHER HUNTING LICENSES

Residents Must Pay \$1.25 Each—
None at all to Aliens.

The high cost of hunting is about
to make itself felt among the Otsego
county sportsmen. Governor Miller
has signed a bill increasing the fee
for a hunting license from \$1.00 to
\$1.25 and providing also that no more
hunting licenses may be issued to
aliens.

Under the former law, while a resi-
dent's license was \$1.00, an alien's li-
cense was \$2.00 and several of these
licenses were issued to residents of
Oneonta who had not obtained their
naturalization papers.

Under the new law not only is the
city clerk forbidden to issue hunt-
ing licenses to aliens, but it is made
mandatory that he see the naturaliza-
tion papers of all foreign aliens who
have become citizens before issuing
hunting licenses to them.

Dedication at Shavertown.

The new edifice erected for the
First Presbyterian church of Shaver-
town, will be dedicated on April 23, at
11 a. m. The ceremony will be in
charge of Rev. Andrew M. Forrester,
of Binghamton, who instituted the
movement for the new church. Rev.
U. L. Mackey, Superintendent of New
York State Synodical Missions, Rev.
T. Maxwell Morrison, First Presby-
terian church, Johnson City. A praise
service will be held at the church at
7:30. Many visitors from a distance
are expected, and for their comfort
and convenience, a free lunch for
everybody, will be served in the din-
ing room of the church. A fine pro-
gram has been planned, and every-
body is cordially invited to attend.

Fined for Sunday Crap Shooting.

Norwich, April 11.—Nine boys en-
riched the city court fund \$27 Monday
morning, after pleas of guilty to shoot-
ing crap Sunday afternoon, near Pine-
dick's new garage at the rear of the
Congregational church.

The boys, whose ages range from 16
to 21 years, were each fined \$3 by
City Judge Forsythe. Some of the
number didn't have the necessary
money, so they were given the oppor-
tunity to earn it between now and
April 22. These boys must inform the
judge how they earned the money.

At the stockholders' meeting of the
Norwich Ice Cream company held
Saturday afternoon in the law office
of William H. Sullivan, it was voted
to increase the capital stock from
\$50,000 to \$150,000, consisting of \$50,-
000 common and \$100,000 preferred.

THE PRESS AND THE PUBLIC

"Stayed Married."

A lady thought she was marry-
ing a musician, found she had married
a waiter, asked the judge for a di-
vorce, on the ground that she had
been tricked into marrying an in-
ferior. The wise judge said, "No,
stay married. Waiters are as respect-
able as any man."—[New York

International Bonds.

The debt obligations among the na-
tions are a row of bricks. This coun-
try is at one end and Austria, the
world's completest bankrupt, is at the
other.—[New York Tribune.]

Control of Reparations.

London has notified Paris that when
the United States calls upon Britain
to pay interest Britain will call upon
France to pay interest. What does
this mean? Britain really expects to
pay us our interest, but it is doubt-
ful whether she really expects that
France will pay.—[New York Tribune]

Give the Railroads a Square Deal.

President Willard, of the Baltimore
and Ohio Railroad, voices the belief
of well-informed persons when he
declares that what the railroads of the
United States need more than any-
thing else at the present time is the
opportunity to work out their prob-
lems without unnecessary and bur-
densome interference. Former Direc-
tor General of Railroads McAdoo
continues to insist that government
control was a great success, and he
adds to this the astonishing statement
that the railroads have failed under
private ownership. The truth of the
matter is that they are only now
beginning to recover from the damag-
ing effects of so-called government
control.—[Philadelphia Inquirer.]

It Can't be Done.

Nothing worth while was ever start-
ed from the building of the Ark to the
digging of a subway or the flogging
of a bridge across a river, without a
saying something "it can't be done."
The bigger the thing to be done the
bigger is the depreciatory uproar. Pro-
pose whatever you please, and there
will be many to inform you that it is
quite impossible.—[Philadelphia Led-
ger.]

A Test of Good Will.

Admiral Sims is right in urging
citizens to notify representatives in
Washington of their conviction that
naval as well as military forces should
be kept at all times adequately pre-
pared for national defense by other
words, urging them to call upon con-
gress to provide a naval strength
sufficient to man the ships that may be
retained under the terms of the
Washington conference.—[Buffalo
News.]

Who is Semenov?

It is no business of a newspaper to
pass any judgment on the charges
which have led to the arrest of Gen-
eral Semenov, the Siberian Cossack
chief. He will have his day in an
American court in regard to the claim
of a trading company that he stole
about \$500,000 in merchandise.—[New

Two Burial Places for an Emperor.

By sending the heart of the dead
Emperor Charles to Austria and his
body to Hungary his loyal friends in
each country will be substantially sat-
isfied. Such a division is in accord
with these days, but the middle ages
often practiced it. The heart was of
course the more precious possession,
and on this principle that of Charles
would go more fairly to Hungary,
where the demand for his return was
louder than in Austria.—[Philadel-
phia Inquirer.]

Specimens of Magnificence.

Teacher.—The word "grand" is used
in the sense of "splendid, sublime,
noble," and the like. Can you give
an example of such use?
Little Bobby.—Yes'm. Grand dukes

An Authority.

Willie.—Papa, teacher asked us to
find some new words that have just
come into the English language. Can
you tell me some?
Papa.—Go ask your mother, Willie.
She always has the last word.—[New

America Helps.

Germans are now going to put a
heavy tax on American visitors. We
are sure that sooner or later she'd
try to get the United States to help
pay her indemnity.—[New York Tri-

Without Excuse.

Perhaps Secretary Davis is right
in his statement that there is no
excuse for raising the price of coal,
but he should remember that some
things are done without any excuse,
and this may be one of them.—[Wes-
tchester Democrat.]

Muffers Wanted.

The navy department has devel-
oped a muffer for motorboat, en-
gines; and if you can put them on
motorcycles, there should be a law.

because they wanted to do so, and
how many because they were told—

D. & H. VETERANS ORGANIZE

At a well attended meeting in Car-
bondale, Pa., Sunday New Organiza-
tion Perfect—Officials of Rail-
road Elected Honorary Members.

The following special to Scranton
Republican from Carbondale, will be
of interest to Star readers:
With close to 200 of the members
of the new D. & H. Veterans' associa-
tion present the first regular meeting
was held Sunday afternoon at the O-
Limo hall. President Martin Crippen
presided. The by-laws, a copy of
which was furnished each member,
were adopted, with a few minor
amendments.

Miss Sarah M. Garvey was elected an
honorary member of the association
to serve as assistant to Ben S. Samp-
son, secretary. J. M. Blockside, a
veteran employee of the company, pre-
sented President Crippen with two ga-
vels made from the wood used in
building the first passenger coaches
of the Delaware & Hudson. This wood
has been stored in lots in the local
shops for over fifty years. One gavel
is for the use of the president of the
association and the other, properly in-
scribed, is to be presented to L. F.
Loree, president of the Delaware &
Hudson railroad, with the compli-
ments of the association.

J. E. Fairhead, superintendent of the
Pennsylvania division in address-
ing the meeting, opened his remarks
by telling the body that the day was
made doubly significant by being the
birthday of Mr. Crippen in addition
to it being the first regular meeting.
He went on to say that in his long
experience in railroad circles he has
never seen a body of employees who
are more loyal than those in the D. &
H. system. He also said that Mr.
Loree was very much interested in
the welfare of the association and pre-
dicted its growth until it embraced all
eligible employees.

Mr. Fairhead further said that he
was in receipt of advice from the
general offices of the company that
the assurance policies recently offered
employees met with great success and
that preparations are being made to
issue same. In closing he offered the
cooperation of the company in any
way toward furthering the welfare of
the association.

E. M. Peck, one of the oldest living
employees of the D. & H. company, his
service dating back to 1857, gave a
short interesting talk to the members.
J. F. Wheeler, cashier of the Pioneer
Dime Bank, also an old employee of
the company, well fortified by dates
and names from memory of incidents
in the early stages of railroading in
this vicinity, was the next speaker to
address the members.

The official journal of the railway
employees was adopted as the official
magazine of the association. A very
neat button, emblematic of the asso-
ciation, was also adopted and will be
furnished all members. The follow-
ing committees were then appointed:
Finance, W. G. Gates, paymaster, Al-
bany, N. Y.; J. R. Atherton, Treas-
urer, Scranton; J. F. Wheeler, Pion-
eer Dime Bank, Carbondale; Exec-
utive, Samuel Foster, Carbondale;
D. F. Walte, Albany, N. Y.; Ed Mar-
tin, Cooperstown, N. Y.; G. F. Warner
Carbondale. The following honorary
members were unanimously elected by
a committee appointed for that
purpose: L. F. Loree, president, D.
& H.; J. T. Loree, vice-president and
general manager, D. & H.; H. F.
Burgh, assistant to the vice-president
and general manager, D. & H.; Col. E.
T. Noble, counsel, D. & H.; E.
Fairhead, superintendent, Carbondale;
R. G. McCarly, superintendent, Al-
bany; H. M. Gargan, superintendent,
Plattsburg; J. E. Roberts, superin-
tendent, transportation, Albany, and Dr.
John S. Niles, company surgeon, Car-
bondale.

Before adjourning President Crippen
told the members that the response
and interest in the association has
been very gratifying to all concerned,
and with the co-operation of all much
can be accomplished before the next
regular meeting. Regular meetings of
the association will be held on the sec-
ond Sunday of January, April and
October of each year. The time and
place of meetings will be published in
the official journal and notice given to
each member by the secretary.

he suffered, because of the shock to

WEST EXETER STORE BURNS

LYNN McLAUGHLIN'S BUILDING
AND CONTENTS, INCLUDING
POSTOFFICE DESTROYED.

Blaze Developed So Rapidly After
Fire Was Discovered That None
of the Contents Were Saved—Loss
Fully \$30,000, Partially Covered by
Insurance.

Schuylar Lake, April 11.—The large
country store of Lynn McLaughlin at
West Exeter, six miles from here, and
in fact the only one in that village,
was totally destroyed by fire, together
with its contents, which included a
large stock of general merchandise
and the village post office, shortly af-
ter 8 o'clock this morning. The at-
tached house of Florence McLaughlin
and all but a small portion of the
household goods of the latter were
also destroyed. The store building
and contents were estimated at fully
\$30,000, building and stock were in-
sured. Mr. McLaughlin, being unable
to state the exact amount. It is be-
lieved that he was fairly well protect-
ed.

Mr. McLaughlin had built a fire in
the furnace but short time before the
discovery was made that the store
was afire. After starting the furnace
fire, Mr. McLaughlin went to the
rear part of the building in which he
stored flour and feed, to wait upon a
customer, and when he returned to
the main store, it was found that the
building was ablaze, and that the fire
had gained such headway that it was
impossible to fight it with buckets or
unaided.

An alarm was quickly sounded and
aid was summoned from Edmeston,
and West Winfield, the firemen from
both places responded but could give
little assistance except to help save
adjacent buildings. Help was also
asked from this place and Richfield
Springs, but owing to the condition of
the direct roads, it would have been
impossible to have gotten through
with any apparatus, and have gone
around, would have caused such de-
lay as to make the project futile.

With the aid of visiting firemen, the
fire was confined to the McLaughlin
store and the residence building with
it. Several times the hotel barn
caught fire, and it was with some dif-
ficulty that the home of Mrs. Ada
Murdoch nearby, was saved. Good
work was done by the big force of
volunteer firemen.

Mr. McLaughlin carried the usual
line found in a large country store,
especially where but one store exists
in a village, and it embraced grocer-
ies, dry goods, clothing, some shoes,
line of small hardware and flour and
feed. Mr. McLaughlin had only a day
or two since, put in a carload of feed
and grass seed, and practically all of
the entire carload was destroyed, he
having sold very little of the ship-
ment.

Mr. McLaughlin also conducted the
post office and all of the postal sup-
plies were lost, together with the mail,
undelivered as well as that out going.
He is unable to give any explanation
of the fire's origin other than that it
must have caught in some way from
the furnace. It is probable that the
building will be rebuilt, as the village
needs a store.

Yes, and the cat-tails were big next morning. I know, for Jack-in-the-pulpit saw them and the bluebirds tolled.

M. H. I. T.

—There will be a smoker at the Oneonta club this evening. As it is the last of the season, it is hoped that there will be a good attendance.

—Work has been commenced upon the highway over the Franklin turnpike and while it was passable yesterday for motor cars it is feared that the rain following the week end will not leave it in very good condition.

—Dr. Ray Champlin was in charge of the baby clinic held yesterday afternoon at the Community house. The clinic this week was notable for the scarcity of the babies, who undoubtedly did not venture out because of the threatening weather.

—Miss Doris I. Francisco, who recently graduated from the Oneonta High school, has completed a course in stenography and typewriting at the Albany Business college, and accompanied by her mother has returned to Oneonta to reside. Miss Francisco has accepted a position as reporter and editorial assistant on The Star. She will appreciate, as will also The Star, any news given her for publication.

CLARKE CONTEST AWARDS

Howard Barker of Binghamton and Gertrude Jones of Walton Are Prize Winners.

The first prize in the final essay contest instituted by Congressman John D. Clarke of this district, goes to Howard Barker of Binghamton, who is the recipient of \$20. Miss Gertrude M. Jones of Walton receives the second prize of \$20.

The initial contest of the series was held several weeks ago and three prizes of \$25, \$15 and \$10 were awarded in Otsego, and in Chenango, Delaware and Broome. Several well-known young people of this city were contestants and prize winners in the initial contest. The four essays which won first prizes in each of the counties were forwarded to Dr. F. A. March of Lafayette College at Easton, Pa., who made the final awards for the district. Dr. March was obliged to make very close decisions, since all of the essays submitted to him were extremely creditable and of nearly equal merit. All essayists who entered the contest as well as those who won prizes are to be congratulated upon the excellence of their work. The district is fortunate in being the scene of such a patriotic and interesting contest as the one which has just taken place.

FINED FOR RECKLESS DRIVING.

Melvin E. Hitt Pleads Guilty in City Court and Pays \$5.

Melvin E. Hitt of this city was fined \$5 in city court yesterday morning when he pleaded guilty to the charge of reckless driving. It was charged that on Saturday last while driving down Main street, that he turned into South Main street at such a speed that he could not control the car and collided with a car owned by Arthur M. Butts, and parked in that location, wrecking one of the fenders of the Butts car.

It is understood that Mr. Hitt attributed his inability to control the car to the dirt which had been left on the pavement by the dump wagons, hauling dirt from the building operations at the new theatre site at the corner of Main street and Ford avenue. He did not claim, however, that he should not have observed the condition of the surface of the pavement and driven his car accordingly and he pleaded guilty.

Meetings Today.

Regular meeting of veteran firemen this evening at 8 o'clock.
Special meeting Oneonta lodge, No. 1312, E. P. O. Elks at E. R. T. hall, this evening at 8 o'clock. Installation of officers.

Regular meeting of W. B. A. O. T. M. at 7:30. Initiation. Guards please wear white.

All Maccabees, who intend to go to Milford, meet at club room this evening at 7 o'clock.

Regular meeting of the I. O. O. M. in the lodge room tonight at 8 o'clock. Initiation to follow the order of business.

The Jolly Ten Embroidery club will meet this afternoon with Mrs. H. W. Edmunds on South Side.

Notice to Motorists.

Numerous complaints reach the police department that certain motorists are leaving their cars on the streets after dark with no lights displayed, that others are operating trucks and cars upon resident streets with cut-outs open, and that still others are operating cars after dark with but one of the headlights burning. These are all prohibited by law and notice is hereby given that the members of the force have been instructed to arrest all offenders of these and other traffic laws. With the advent of the summer months and many cars in operation safety of the public requires strict compliance with the law and all thoughtful motorists should cheerfully comply. Those who do not will be prosecuted.

Get Out Your Lantern.

You will need it with which to find those who have not enough to get out of the rain head class. Most of us are so lazy that we do not seem to realize how success comes to those who put body, brain and bitches into their work. The pin heads are so numerous that yellow newspapers find it profitable to cater to them with tommy-rot stuff. It makes me tired when I think how for 33 years I've been unselfishly working to get people out of the pin head class. While there is life there is hope and I'm still on the job. Watch me wake 'em up. I'm the safe and sane Oneonta Building and Loan association.

MURDER CASE IS RECALLED

DEATH OF HENRY A. WARD AT GARRATTSVILLE OCCURRED ON MONDAY

In 1915 He Pleaded Guilty to the Charge of Second Degree Murder. He Having Shot the Wife of His Son, Thomas, at the Family Home, Fardoned by Governor Smith in 1920—Man Respected in the Town.

Henry B. Ward, one of the oldest residents of the town of New Lisbon, died Monday morning at the home of his son, Thomas Ward, in Garrattsville. Mr. Ward was over 90 years of age and his death was due to the infirmities of age. The funeral will be held from the house on Thursday at 12 o'clock and will be private.

The death of Mr. Ward recalls one of the most remarkable murder cases in the annals of the county, in which Mr. Ward was the central figure. On August 28, 1914, he shot and killed the wife of his son, Thomas, while she was engaged in ironing in the living room at the home. It was disclosed that she had irritated the aged man in many ways.

Mr. Ward was indicted for the crime, first degree murder being charged. Hon. N. P. Willis was his attorney and on the morning that the trial was to be commenced at Coon-

Henry B. Ward.

estown, March 1, 1915, Ward appeared in court and changed his plea of not guilty to guilty of murder in the second degree. This plea was accepted by the district attorney and Justice George McCann of Elmira, who was presiding, and the aged man was sentenced to Auburn state prison for the term of his natural life. He was then 84 years of age. He was, it is believed, the oldest man ever convicted of murder in the country.

On January 19, 1920, Governor Alfred E. Smith pardoned Ward and he returned to the family home to spend the remaining days. He has fallen quite steadily since his return.

Former residents of New Lisbon were instrumental, with other residents, in securing his pardon and it gave general satisfaction. Mr. Ward was considered a good and inoffensive citizen and the belief was widespread that he had great provocation. There are, it is believed, three sons surviving. The son, Andrew, now residing in Chicago, is expected to arrive today to attend the funeral services.

WYCKOFF OPENS FLORIST SHOP

Many Visitors Yesterday at Downtown Salesroom in Hotel Oneonta.

Much attention was drawn yesterday to the attractive new downtown shop owned by Ralph S. Wyckoff, the florist, in the new store partitioned off the original lobby of the Oneonta hotel. The latest and most attractive fixtures have been installed and the flower shop presents a most pleasing appearance. Mr. Wyckoff has had a refrigerator of the latest model installed for the display of cut flowers and various pieces of wicker furniture give the shop a most homelike and up-to-date atmosphere. All the fixtures have not yet arrived, but Mr. Wyckoff expects to have them installed later.

Miss Helene Huether, formerly with the Otsego & Delaware Telephone company, will be in charge. It is expected that the downtown shop will do a large business in carnations, roses, daffodils and other cut flowers, also the various kinds of Easter plants, while the bulk of the larger floral pieces will be handled at Mr. Wyckoff's Grove street greenhouses.

Holy Week at the Lutheran Church.

The Rev. Philip M. Luther, pastor of the Lutheran church on Grove street, announces several special services for observance of Holy Week. Tonight at 7:45 there will be held the first meeting of Holy Week at the church under the direction of the pastor. Thursday evening at 7:15 a second special meeting will be held. On Friday at 7:45 p. m. the pastor will conduct a service preparatory to the holy communion on Easter Sunday. Interesting programs have been prepared and everyone is urged to be present, especially at the Friday night service.

MONDAY IS "ZONING DAY"

Expert Consulting Engineer Will Put in Busy Day, Giving Address at Public Forum in Evening.

A busy day has been planned next Monday for Ernest P. Goodrich, of New York city, the expert consulting engineer being brought here by the Oneonta Chamber of Commerce to start off public discussion regarding the expediency of having zoning ordinances prepared and adopted.

Mr. Goodrich, who is vice president of the Technical Advisory corporation, will arrive Monday on the morning train from Albany. The day's schedule prepared for him includes a public address at 10 o'clock and conferences with City Engineer Gurney and the zoning committee of the Chamber of Commerce, of which P. R. Chambers is chairman.

A conference for 3:30 o'clock Monday afternoon has been called at the Chamber of Commerce to discuss the zoning movement. It is expected that the discussion of zoning in Oneonta this spring will arouse considerable public interest, as has been the case in other cities where the topic has come up. The zoning movement is young, having been started in the United States only six years ago when New York city adopted comprehensive ordinances, but the growth of the movement in the last few years and the number of cities and the large groups of supporters which it has won, indicate that zoning doubtless embraces beneficial features which warrant the serious study of any growing city, regardless of its present size.

FLAGRANT VIOLATION

Reprimanded for Violation of Quarantine Regulations of City.

Complaint having been made that the quarantine regulations of the city were being violated by the family of W. F. Wenck of Boylston street, where a case of scarlet fever exists was not being observed, Health Officer Augustin visited the home and warned the parents the other children should not be allowed to leave the yard. He had severely gotten out of sight of the house than two of the children were started off up street on some errands according to the report that reached the health officer. Another one of the children was sent to another house in the neighborhood on an errand.

When the condition was made known to the authorities an officer was sent for Mr. Wenck and he was brought before City Judge Huntington. The latter gave him a severe reprimand and informed him that any further violations would result in severe punishment. After informing him that the city would not tolerate any further indifference to the health of the city or infraction of the quarantine regulations Wenck was released and sent home.

There is a determination to have the quarantine regulations more carefully observed and perhaps a jail sentence will be required before some will understand that they cannot be broken with impunity.

NEW PASTOR AT MORRIS.

Rev. Andrew Mitchell Comes From Saskatchewan to Accept.

Rev. Dr. James A. Hensley has returned from Endicott and the annual session of the Wyoming conference. The list of appointments published in The Star for the Oneonta district were correct according to Dr. Hensley, although they differed from those published in the Binghamton newspapers had the appointments at Milford, Morris and Otsego changed.

Rev. Mr. Volz returns to Otsego and Rev. Harry D. Brooks of Morris is transferred to Milford.

To succeed Mr. Brooks at Morris Dr. Hensley has secured Rev. William Mitchell, who comes from Tokeevy, Sask., but cannot reach here for several weeks. Rev. Mr. Mitchell is a young Scotchman and is said to be a capable young man. Pending his arrival the charge will be supplied by Rev. Charles Young, a retired clergyman residing in this city, who has been supplying at Westford recently.

Grand Matron at Queen Amelia Court.

Mrs. Lulu F. Baxter, Grand Royal Matron of the order of the Amaranth of the state of New York, paid her official visit to Queen Amelia court No. 64, last evening. The Grand Royal Matron was welcomed to the city and the local court by Mrs. Irving Foster, district deputy. Later the members of the court were entertained by musical selections by Mr. Hill and Mrs. Thayer. The initiatory ceremonies were performed under the direction of the officers. Supper was served at 7 p. m. At the close of the evening, Mrs. Arthur Ingerham, of the local court, presented the Grand Royal Matron with a delicately cut Tiffany glass flower bowl, in token of the esteem in which she is held by the members of Queen Amelia Court.

Reminder of Florida.

The members of the Oneonta club are displaying no little interest in the young alligator forwarded to Attorney George Wohlleben by Dr. Stanton Hendrick, who with his family has been spending several months in Florida. Mr. Wohlleben has in turn given the young animal over to the club and it is becoming quite a pet, especially among the cowboy pool bunch.

The Ladies' Aid Society of the United Presbyterian church will serve one of their popular suppers on April 29. Advt. 1c.

The meat markets will close this afternoon from 1:30 to 3:30 on account of the funeral of W. H. Williams. Advt. 1c.

PARSHALLS ADOPT INFANT

Judge Welch Probates Wills of Amanda M. Moore and Mary L. Huntington.

City Judge Welch of Edmeston at a special term of county court at supreme court chambers here signed the adoption papers whereby Mary J. O'Neill becomes the foster child of C. and Mary Parshall of Myrtle avenue. The adoption was with the approval of the child's aunt and lawful guardian, Mrs. Elizabeth T. Munson.

Owing to the fact that Surrogate S. L. Huntington was disqualified to hear the application, the will of the late Mrs. Amanda Moore, late of Laurens, but formerly of Oneonta, who left quite an estate, was offered for probate before Judge Welch. It was admitted, Frank Carr and Everett Sherman were named as executors. Frank C. Keyes was the attorney.

The same condition prevailed in the case of the will of the late Mrs. Mary L. Huntington, late of Oneonta, and the will was probated. Mrs. Vivian C. Carr was named as executor. City Judge Frank C. Huntington was the attorney appearing.

"THE PURITY BAKERY"

Stanley Mulkins to Open Broad Street Bakeshop Tomorrow Morning.

Stanley Mulkins will open his "Purity Bakery" on Broad street tomorrow morning. The store space which was recently vacated by the express office has been redecorated and numerous improvements made, and will make an attractive bakeshop for Mr. Mulkins.

For several years, Mr. Mulkins conducted a bakery on Dietz street and enjoyed a large patronage. He will carry a full line of bake goods at his new store, and with new ovens and equipment throughout he will be well prepared to supply the needs of his patrons.

Pays Official Visit.

Mrs. Nan Held Cox of Oneonta, district deputy grand matron of the Order of the Eastern Star, will pay an official visit to Otsego chapter at Cooperstown on Wednesday evening, April 26. Arbutus chapter of Richfield Springs has been invited to attend, and it is expected that a large delegation from that village will attend.

DEATH OF MRS. EGBERT S. NILES

Live-Long Resident of Otego Valley Dies Tuesday Morning.

Nellie A. Baker, wife of Egbert S. Niles, died at 9 o'clock Tuesday morning at the family home, which is in the town of Laurens, on the east side of the Otego creek and only a short distance from the Oneonta township line. The cause of her death was acute kidney disease, and her illness had been of only about two weeks' duration.

There will be prayer at 1 p. m. Thursday at the house, and the funeral services will be at 2 o'clock at the Free Baptist church of West Oneonta. Her pastor, Rev. L. C. Miner, will officiate, and interment will be in the family plot in the Cook cemetery at West Oneonta.

Mrs. Niles was born May 29, 1868, and was a daughter of Mr. and Mrs. Stephen Baker of West Oneonta. She was married January 21, 1891, to Egbert S. Niles, who survives her. Her home during the whole of her life had always been in the same vicinity. She was a kind-hearted, deeply respected woman, a member from early girlhood of the Free Baptist church, a devout Christian and a devoted wife and mother. The sympathy of all who knew her will be extended to the family in its great loss.

The deceased is survived by her husband and by one son and two daughters—Darwin and the Misses Hattie and Gertrude Niles, all residing at home; also by two brothers, Daniel I. and Marion O. Baker, and two sisters, Mrs. Joseph White and Mrs. Clark Green, all of this vicinity. Her father died about 15 years ago. Her mother, who also survives, is now Mrs. Wheeler Green of West Oneonta.

IN SURROGATE'S COURT.

Will of Almon D. Phillips, Late of Worcester, Admitted to Probate.

At the regular term of the surrogate's court here the will of the late Almon D. Phillips, late of Worcester, was offered for probate. At first it appeared that there would be a contest, E. R. Campbell of Schenectady appearing for Mrs. Libbie Bennett of that place, who opposed its being probated, she being a child of the deceased. The will was offered by L. J. Barnes esq. of Worcester, who appeared for Almon Phillips of Worcester, who is named as executor.

Before the matter was finally presented to Surrogate Huntington a compromise was reached outside of the court, it being understood that a substantial settlement was made with the proposed contestant and the objections were withdrawn and the will admitted. The estate inventories about \$3,000.

In the estate of the late Amos D. Miller, late of Oneonta, a final accounting was made by James C. Burnside, the executor. F. C. Huntington appeared for the executor.

There was also a final accounting of the estate of the late Chester G. Stoddard, late of Oneonta. The estate was small. J. R. Jackson appeared for the administrator, Owen C. Becker.

The will of the late George H. Warfield, late of Oneonta but formerly of Delaware county, was probated. Ruiz R. Mackey is named as executor and is chief beneficiary under the will which disposes of about \$2,000 of personal property.

Delavan Osterhoudt Dies Tuesday at Homestead Near Emmons.

The community, and in particular the immediate neighbors of Delavan Osterhoudt were saddened on Tuesday by the tidings of his death, which occurred at about 4 o'clock that morning at the homestead at Emmons, on which the family had resided for more than a hundred years. The immediate cause of death was pneumonia, and he had been seriously ill for only two days.

Mr. Osterhoudt was born May 12, 1863, and was a son of the late Abram and Amanda (Knapp) Osterhoudt. He was never married. The immediate surviving members of his family are one sister, Miss Vanila Osterhoudt, with whom he resided; a brother, Abram, whose home was on an adjoining farm, two nephews, Maurice of Cooperstown and Millard of Emmons, and one niece, Mrs. Raymond Morey of 24 Valleyview street, Oneonta.

The funeral services will be held at his late home Thursday afternoon at 2 o'clock. Rev. W. E. Elwood, pastor of the Emmons Methodist Episcopal church, will officiate, and interment will be in the family plot in the Riverside cemetery.

Mr. Osterhoudt was an industrious, much-respected man. He was a kind neighbor and was always ready to lend a helping hand to those in need. He leaves many friends who will sympathize with the immediate family in its hour of bereavement.

MRS. ANDREW WHITNEY.

Funeral of Cooperstown Woman Will Take Place This Morning.

Cooperstown, April 11.—Mrs. Andrew Whitney died Monday morning at her home, 11 Hill street, after a two weeks' illness of bronchial congestion. The funeral will be held Wednesday morning at 11 o'clock at the late home, conducted by Rev. LeRoy Halbert, pastor of the Baptist church. Burial will be at Hartwick Seminary.

Mrs. Whitney was born in Jefferson, Delaware county, on March 1, 1862, a daughter of Mr. and Mrs. William Roe. She was married in 1880 to Andrew Whitney of Kortright, and they came to Cooperstown about 14 years ago.

Besides her husband, Mrs. Whitney is survived by four children, Mrs. William Kellogg, Mrs. Walter Welland and L. Floyd and Carl Whitney, all of Cooperstown, one sister, Mrs. Edwin Demore of East Massonville, and one brother, Warren Roe, of Meriden.

DEATHS.

Miss Emelyn E. Risley.

Miss Emelyn E. Risley, daughter of Mr. and Mrs. E. E. Risley, of 24 London avenue, died at Los Angeles, Cal., Monday, April 3, aged 25 years. The body is expected to reach Oneonta today and the funeral services will be held from the family home Thursday afternoon at 2:30 o'clock. Rev. Dr. Charles S. Pendleton of the Main Street Baptist church will officiate and interment will be made in the Plains cemetery. Miss Risley was a native of Oneonta, but had resided most of her life at Walton. She had been in California since February last for the benefit of her health. She is survived by her parents and one sister, Miss Elizabeth, who will have the sympathy of all who know them.

Get Your Free

\$1.00 PACKAGE OF GENUINE YEAST VITAMINE TABLETS from your druggist today.

If you are thin and emaciated and wish something to help you put on flesh and increase your weight, Yeast Vitamine Tablets should be used in connection with organic Nuxated Iron. Yeast Vitamine Tablets are absolutely useless as your body cannot change inert, useless food into living cells and tissue unless you have plenty of organic iron in your blood. Organic iron takes up oxygen from your food, and so doing it creates tremendous power and energy. Without organic iron in your blood your food merely passes thru your body without doing you any good.

Arrangements have been made with the druggists of this city to give every reader of this paper a large \$1.00 package of Genuine Yeast Vitamine Tablets absolutely free with every purchase of a bottle of Nuxated Iron.

Mrs. George Detrick Dies Saturday After Over Dose of Paragoric.

Mrs. George Detrick, who formerly resided at 197 Chestnut street, this city, committed suicide at her home in Altamont, by an overdose of paragoric, which she took Saturday night, death ensuing early Sunday morning. Mrs. Detrick had been a drug addict for twenty years, and became desperate when an attempt was made to prevent her from securing any more drugs. On Friday she bought a pint of paragoric in Albany, and the empty bottle was found in a closet in the house after her death. The coroner's verdict was suicide through an overdose of paragoric.

Mrs. Detrick was forty-three years of age, and had resided for some time at Oneonta, where her husband was an employee of the D. & H. railroad. So far as can be learned, she leaves no relatives except the husband above named.

HOUCK HELD FOR GRAND JURY

Grand Gorge Resident Charged With Leaving Scene of Motor Car Accident Without Reporting Name and Residence.

Davenport April 11.—Harry Houck of Grand Gorge, was arraigned here Monday p. m. at 3 o'clock, charged with having left the scene of the accident on Saturday evening when his motor car struck a girl, while she was crossing the street in this village without having given his name or address. He stopped after the accident, but when requested to give his name and address he refused to do so and proceeded on his way to Oneonta.

He was later apprehended by two state troopers and charged with the offense, while in Oneonta. Arrangements were made for him to report to Justice J. M. Hebbard here. He appeared, but without counsel, and after hearing the complaint against him was held in \$1,000 bail for his appearance before the next grand jury at Delhi.

Further reference to the accident is made in a report forwarded at an earlier hour.

REPAIRING SOUTH SIDE ROAD

Motorists Will Appreciate Improvement—South Side News Notes.

The public in general, and motorists in particular, will be interested to know that a force of men has been at work the past few days repairing the state road on South Side. In the vicinity of the Charles Sanford farm, the road has been in a very bad condition, for when the frost left the ground the road heaved up in several places. The improvement will be appreciated by every one of the hundreds of motorists who use the road daily.

Mr. and Mrs. Conrow Entertain

Mr. and Mrs. Clyde Conrow entertained a number of friends at their residence the other evening. A very pleasant evening was passed with games and other amusements, and at a late hour, delicious refreshments, consisting of warm sugar, ice cream and cake, were served. All report an enjoyable time.

Mr. Coe Has New Dodge.

Wilson Coe is driving a new Dodge sedan which he purchased last week of the Traver-Blair company. The family is well pleased with the purchase.

South Side Brevities.

John Slade had the misfortune to suffer the loss of a cow last week. The animal slipped on the state road and broke a leg and it had to be killed.

Edward Griffin is ill.

Why the '10.90 USCO is better than just a '10.90 tire

On November 10, 1921, the 30 x 3 1/2 "USCO" was marked to sell for \$10.90.

This odd and closely figured price was the lowest quotation ever made on any tire of known standards.

A genuine pioneering step by the makers of U. S. Tires.

* * *

Now comes a lot of different \$10.90 tires being rushed into the market. "Special" tires. "New" treads.

Unfamiliar to look at—with perhaps an atmosphere of having been made to meet the price.

But the "USCO" still occupies a place by itself. A good old

standby on millions of cars for years. Better than it ever was.

Still putting the emphasis on honest quality, even if it does sell for only ten dollars and ninety cents.

The \$10.90 tire with the record of a proven product.

The tire that people still buy for the dignity of its quality regardless of the low amount they pay.
